COUNTRIES IN BLUE: Countries with 1990 starting point above average.

COUNTRIES IN GREY: Countries with 1990 starting point below average.

a Goal met before 1990.

b Countries having met the goal before 1990 still progressing.

c Countries having met the goal before 1990 but going backwards.

f Significant regression.

e Some regression.

h Stagnation.

d Some progress.

g Significant progress or goal already achieved.

Tajikistan ^C	2331	2176	f	2509	2700						

A: Countries that must achieve a minimum of 2,300 cal. **B:** Countries that must grow 1% per year. **C:** Countries that starting off with less than 2,300 cal. can reach 2,700 cal.

D: Countries that starting off with more than 2,300 cal. can reach 2,700 cal. **E:** Countries that starting off with more than 2,700 cal. can reach 3,000 cal.

F: Countries that starting off with more than 2,950 cal. can reach 3,200 cal.

In the case of countries for which a SEA under 2,700 cal. is predicted for year 2010, the commitment should aim at rising in 20% (1% per year) between 1990-92 and 2010, in a higher proportion if needed to meet a minimum.
