

Table B3.c1. Health Programs.
1993, 1994, 1997 and 1998

Program	1993	1994	1997	1998
Tuberculosis Control Program				
Sputum examined	1,531,239	1,452,540	1,124,011	969,282
Positive /a	94,382	89,869	106,660	70,249
Treated /b	136,743	198,096	199,665	86,762
Malaria Control Program /d /e				
Smears Examined	982,639	735,778	282,804	326,687
Positive	51,631	51,355	54,355	50,710
Treated /c	59,794	136,612	249,198	166,326
Schistosomiasis Control Program /g				
Blood Examined	1,025,225	576,638	262,103	314,069
Positive	33,555	40,809	13,625	13,729
Treatment /f / Examination	35,942	29,350	13,265	13,065
Leprosy Control Program /l				
Eligible Population for Treatment	22,507	18,022	13,416	13,867
Treated /h	12,605	10,456	3,107	4,098
Sexually Transmitted Diseases Control Program				
Treatment of Syphilis	396	508	210	
Treatment of Gonorrhoea	6,035	4,097	2,006	
Treatment of Other STDs	38,570	26,734	34,489	
Treatment of With Vaginal Discharge /j				22,641
Treatment of With Urethral Discharge /j				3,169
Treatment of With Genital Ulcers /j				462
